Name _____

9-C-2

Partner Name _____

Worth It?

Below are some reasons why rainforests should be saved. Read each sentence and discuss with your partner what it means to you. In the blank, write the number that best expresses your opinion about each sentence.

1= very important to me

2=somewhat important to me

5=not very important to me

_____ Rainforests have unique plants for new foods, medicines and other products.

_____ The rainforest is home to many rare animals and plants. Destroying rainforests could make these species extinct.

_____ The rainforest is home to different people. No one has the right to destroy these people's homes and ways of life.

_____ The rainforest is a beautiful place with many awesome plants and animals.

_____ Cutting the rainforest causes such problems such as soil erosion and water pollution in the rainforest countries.

_____ The rainforest products (food, wood, nuts) will become scarce and more expensive if rainforests are destroyed.

Look at those sentences that you placed a one next to. Design a bumper sticker around one sentence.
